

One year, \$5.00  
Six months, 3.00  
Three months, 2.00

Work of every description done  
and in the very best and most artistic  
manner, at reasonable rates.

E. C. DAK, 65 Merchants' Exchange, San  
Francisco, is Agent for the Enterprise in that  
city. He is authorized to attend to any busi-  
ness involving on him as the representative of  
the publisher. Copies of the paper are kept  
at file at Mr. Dake's office where they can be  
seen at any time.

Entered at the Florence Postoffice as second-  
class matter.

FLORENCE, SATURDAY, April 9, 1887

WE HAVE the personal assurance of an  
authorized agent of the Surveyor General,  
who has devoted a year to an official  
investigation of old Spanish land grants,  
that even if there was a shadow of a  
title to the Peralta-Reavis land grant,  
said shadow would not fall within the  
limits of the Territory of Arizona. The  
bliking baron, in working up his fraudulent  
grant, lost his bearings and located it  
in the wrong locality. General Rice will  
puncture this fraud in due time.

JOHN A. BAXTER, one of the new part-  
ners of J. Addison Reavis, has been in-  
dulted and arrested for complicity in  
land frauds while he was Surveyor Gen-  
eral of California. His other new part-  
ner, E. L. Stokes, of New York, is the  
chap who murdered Jim Fink and served a  
term in Sing Sing penitentiary; and some  
of his silent partners who reside in  
this neck o' woods are even more disrepu-  
table. There could hardly be a better  
illustration of the truth of the old axiom,  
"birds of a feather flock together."

OUR esteemed contemporary, the Star,  
new walls over the fact that the Gov-  
ernor does not publish notice of rewards  
for the arrest and conviction of crim-  
inals in the Star. There are two reasons  
to justify the Governor's course. The  
first and principal one is he desires the  
notices to be seen and read, and there-  
fore selects such papers as have a general  
circulation. The second is, the fact that  
the Star, by its intemperate and unwar-  
ranted abuse of the chief executive,  
has forfeited all right to his patronage.

#### Provisions of the New Act Re- garding License Tax.

License must be procured immediately  
before the commencement of any busi-  
ness or occupation which is liable to a  
license, and in addition to the county  
license persons doing business in towns  
or cities must pay the local tax. The  
penalty for violation of this law shall not  
be more than \$300 and not less than the  
delinquent tax, or imprisonment in the  
county jail not exceeding three months,  
or until the fine be paid, at the rate of  
one dollar per day.

Any person is deemed to have violated  
this law if he cannot produce, or prove  
that he procured, the necessary license.

Liquor dealers and others selling any  
wines or liquors in quantities of two gal-  
lons and upwards shall pay as follows:  
If quarterly sales amount to \$25,000 or  
more, \$125 per quarter; from \$15,000 to  
\$25,000, \$100; \$10,000 or less, \$75; in  
quantities less than two gallons and not  
less than one pint, \$30; provided, that  
saloon keepers who pay license tax for  
retailing wines and liquors may sell the  
same in quantities of one quart or less  
without paying the license tax required  
by this clause.

#### SALOON KEEPER.

Retail dealers in quantities of less  
than one quart shall pay \$50 per quarter,  
in addition to any other license tax paid  
for any other business carried on by  
them at the same place. If sold at a  
wayside inn or station, not within five  
miles of any city, town or village, \$10  
per quarter only.

Physicians and apothecaries are ex-  
cepted from the foregoing, if the liquors  
are used in the preparation of a prescrip-  
tion.

Traveling merchants, hawkers and  
peddlers, who carry their wares with  
them, \$5 per month; if carried by a  
wagon, \$10.

Commercial travelers and others sell-  
ing from samples, \$30 per quarter; not  
transferable, and good in any county  
until it expires, but paid in the county  
in which it is issued.

#### THEATERS AND SHOWS.

Managers and lessees of any kind of  
theatrical show or circus, etc., license  
tax of \$25 per quarter, or if no quarterly  
license is paid, \$5 each performance;  
amateurs excepted.

Every public billiard table, \$10 per  
quarter; bowling alleys, etc., \$10 per  
quarter.

Gambling is licensed at the rate of \$30  
per month on each gaming table or ap-  
paratus.

Breweries and distilleries, with quar-  
terly business amounting to \$10,000 or  
more, \$40 per quarter; from \$5,000 to  
\$10,000, \$20; \$5,000 or less, \$10.

Pawbrokers must pay a quarterly  
license tax of \$30; insurance agents, \$5.  
No license granted under the provi-  
sions of this act shall be construed to ex-  
empt the property used or invested in  
the business or occupation from taxation  
under the general revenue laws of the  
Territory.

Sheriffs are made liable for any licenses  
they fail to collect by reason of careles-  
ness or neglect.

License receipts must be kept publicly  
posted in places of business, and are not  
transferable, under penalty of \$500 fine  
or three months' imprisonment.  
This act repeals and supplants all  
license tax laws.

#### FOURTEENTH LEGISLATURE.

##### A Good Record.

"By their fruits ye shall know them."  
The Fourteenth legislature has passed  
away, as did thirteen of its predecessors.  
Its work is before the public for criti-  
cism. No candid person will hesitate to  
affirm that it has been the best legisla-  
ture which has ever convened in Ari-  
zona. A comparison of the work done  
by the Fourteenth with that of the Thir-  
teenth legislature is indeed striking.

In the first place, the Fourteenth leg-  
islature has clearly demonstrated that  
the number of clerks allowed and paid  
by the United States is quite sufficient to  
conduct all the business of the legisla-  
ture. Instead of a clerk for each mem-  
ber, at an expense to the Territory of  
\$23,700, which the Thirteenth legisla-  
ture so extravagantly indulged, only  
those paid by the United States have  
been employed during this session, and  
the cost to the Territory is nothing.

Surely the taxpayers will approve of  
this, notwithstanding the little sneers at  
"Democratic economy."

The printing bill of the Territory is  
not \$20,000, as it was in 1885, but only  
amounts to \$5,000, a saving of \$15,000,  
at which the taxpayers will not murmur.

The Fourteenth did not call upon the  
taxpayers to pay \$3,076.80 for news-  
papers for the education of its members,  
as did the Thirteenth.

The members of the Fourteenth did  
not vote themselves \$2,040 out of the  
Territorial Treasury after the fashion of  
the Thirteenth, nor did it indulge in  
such little stealings as \$888.80 for post-  
age stamps and \$401.85 for incidentals  
and stationery. It was not so liberal as  
the thirteenth in donating \$10,000 to a  
private society for horse racing and fair  
purposes, nor did it with Territorial  
moneys build a bridge for one county at  
an expense of \$15,000, and a wagon road  
for another at a cost of \$12,000.

But for all this the people who tell  
and pay the taxes will not think less of  
the Fourteenth legislature.

A comparison between the appropria-  
tion bills of the Thirteenth and Four-  
teenth legislatures will show who were  
faithful to their trust. Here are the  
appropriations made by each legislature  
placed side by side:

	Thirteenth.	Fourteenth.
Auditor.....	\$ 2,000 00	\$ 2,000 00
Treasurer.....	2,000 00	2,000 00

	\$287,178 73	\$47,517 13

#### Deduct the appropriations of the Fourteenth from those of the Thirteenth and the appropriations of the Fourteenth are less than those of the Thirteenth by the sum of \$239,546.60. This is cer- tainly a good showing for the Fourteenth legislature and a record for the Demo- cratic which the taxpayer voters will re- member.

It would be amusing, were it not scan-  
dalous, to see some persons, and even  
newspapers, who before election advo-  
cated reform and retrenchment, now as  
openly deride a wise economy.

Just criticism is very proper and right,  
but willfully false statements, gross mis-  
representations and coarse derision,  
though they may make the unthinking  
laugh, can but make the judicious grieve.

The citizens of Arizona are to be con-  
gratulated upon the work of their recent  
legislature and may well be proud of  
such honest and efficient servants.

The people will not forget, either, that  
the Democratic party has redeemed the  
pledges it made to electors at the last  
election.

It is now quite plain that the railroad  
companies are proceeding upon a thor-  
oughly digested plan to do everything in  
their power to make the Interstate Com-  
merce act odious to the people. This is  
evidenced by the class of goods upon  
which the rates have been advanced. In  
every instance the advances are thor-  
oughly inexcusable and calculated to an-  
noy and cripple important interests. This  
is a short-sighted policy and will re-  
sult to the injury of the railroads. The  
steady working out of the rights of the  
people cannot be stopped by such sub-  
terfuges, though it may cause delay.—  
Chronicle.

The Amherst Alumni Association, of  
New York, has taken steps to endow a  
professorship in that college in honor of  
Henry Ward Beecher, who graduated in  
the class of 1834. The sum necessary  
for the purpose is \$80,000, and it is re-  
ported that over \$20,000 has already  
been practically assured.

#### IS THERE ANY HOPE?

##### NEW AND IMPORTANT OPINIONS OF PULMONARY EXPERTS!

##### Can the Universal Consumption be Successfully Treated?

Dr. Borgoon, a leading French doctor,  
has a new treatment for consumption.

He gives an emulsion of carbonic acid  
sulphuretted hydrogen gases, the latter  
gas carrying the former into every part  
of the throat and lungs.

This treatment, too, is directed at  
effects—the cause remains undisturbed.  
What this cause has been stated by  
perhaps the highest pulmonary authority  
in the world, i. e., the Brompton Hos-  
pital for Consumptives, in London, Eng.

This remedy every year carries off from  
one-seventh to one-fifth of the entire  
population of England!

Dr. Payne, M.D., M.R.C.P., London, is  
authority for this statement.

The same or a greater proportion of  
deaths obtains in America.

Dr. Payne also says that one-half the  
total number of deaths from all other  
causes have seeds of this disease in the  
system which only require some irritant  
to develop!

Dr. Hermann Brehmer, an eminent  
German authority, says that consump-  
tion is caused by deficient nutrition of  
the lungs, by poor blood.

These authorities cannot be disputed.  
The medical world recognizes them. The  
uric acid is the impurity in the blood that  
causes the development of the seeds  
which Dr. Brehmer says lie dormant in  
the blood.

Every particle of blood which passes  
through the lungs and heart, also goes  
through the kidneys, and if they are in  
the least deranged they cannot rid the  
blood of its killing poison.

The thousand little hair-like tubes of the kidneys  
very easily get blocked up and diseased;  
and when they do, they cannot purify the  
blood. Kidney disease may exist, and yet no pain occur in that  
organ, because it is deficient in nerves of  
sensation.

Dip your finger in acid every day and  
it soon fosters a disease and death. So  
acid poisoned blood through the lungs  
every second, and they soon give way.

The Brompton Hospital investigation  
showed that 52 per cent. of the victims  
of consumption were afflicted with de-  
ranged kidneys which turned the uric  
acid poison to remain in the blood and  
irritate the lungs. This uric acid is al-  
ways fighting every vital organ, and if  
there be any inherent weakness in the  
lungs it inevitably causes pneumonia,  
cough and consumption.

The real cause of pulmonary troubles  
being so authoritatively shown to be  
faulty even though unsuspected action of  
the kidneys, explains why, in order to  
master the dreaded consumption, one  
must rid the blood of the uric acid irri-  
tant which inflames and burns up the  
lung substance. For this purpose there  
is nothing equal to that great specific,  
Warner's safe cure. This remedy has  
now the favor of medical men all over  
the world purely on its merits. We have  
no doubt that the kidneys are kept in  
natural action, consumption and a great  
many other diseases, caused by uric acid,  
will not only be cured but will be pre-  
vented.

When the kidney is healthy, no albumen  
appears in the water, but albumen  
is found in the water of more than half  
of those who die of consumption.

This, then, is the condition of things  
that always precedes consumption: First,  
weakened kidneys; second, retained  
uric acid, poisoning the blood; third,  
the development of disease in the  
lungs by the irritant acids passing  
through them. Then there is a little  
cough in the morning, soon thick, yellow  
matter is spit up, followed by loss of  
fresh and strength, with dreadful night  
sweats; and when the patient goes to his  
school physician for help, he is put on  
cod-liver oil which his stomach, weak-  
ened also by uric acid in the blood, can-  
not digest. Because there is no pain  
present in the kidneys, the doctor does  
not think they are affected, but the kid-  
ney acid is doing its work every minute,  
every hour, day and night, and by-and-by  
the disease of the lungs has advanced  
until pus is developed, then come hemor-  
rhages, and at last the fatal state which  
denotes that the end is near!

A post-mortem examination of such  
cases shows that the terrible uric acid  
has completely destroyed the substance  
of the lung.

It is impossible to cure lung disease  
when the blood is poisoned with uric  
acid.

#### A Suggestion to the Traveling Public.

Tourists, emigrants and mariners find  
that Hostetter's Stomach Bitters is a  
medicinal safeguard against unhealthful  
influences upon which they can implicitly  
rely, since it prevents the effects of vi-  
cinated atmosphere, unaccustomed or un-  
wholesome diet, bad diet, or other con-  
ditions unfavorable to health. On long  
voyages, or journeys in latitudes ad-  
jacent to the equator, it is especially use-  
ful as a preventive of the febrile com-  
plaints and disorders of the stomach,  
liver and bowels, which are apt to attack  
natives of the temperate zone sojourning  
or traveling in such regions, and it is an  
excellent protection against the influence  
of extreme cold, sudden changes of tem-  
perature, exposure to damp or extreme  
fatigue. It not only prevents intermit-  
tent and remittent fevers, and other dis-  
eases of a malarial type, but eradicates  
them, a fact which has been notorious  
for years past in North and South Amer-  
ica, Mexico, the West Indies, Australia  
and other countries.

#### Los Angeles.

Theodore Reymert and Harry Brook,  
formerly of Arizona, have established a  
commission and purchasing agency at  
Los Angeles, and will give their careful  
and prompt attention to all business en-  
trusted to them. Information concern-  
ing real estate, produce, or other matters  
cheerfully furnished.

Southern California offers attractive  
opportunities for investment at the pres-  
ent time and is the cheapest market for  
Arizonaans to purchase in.

Persons having good cattle ranches,  
productive mines or agricultural lands  
for sale at a moderate price are invited to  
send particulars. The highest Territorial  
references furnished. Address  
Reymert & Brook, 141, East First street,  
Los Angeles.

#### Treatment of Pleuro-Pneumo- nia.

The Chicago Tribune tells how pleuro-  
pneumonia is being dealt with in that  
city: "The Live Stock Commissioners  
are now occupying an office in Montauk  
block, and the work of stamping out  
pleuro-pneumonia in Chicago and its sub-  
urbs is in active progress. The territory  
covered is believed to be larger than is  
absolutely necessary, but the commis-  
sioners have proceeded upon the prin-  
ciple that it was better to cover too much  
ground than not enough. When the  
work now in hand is complete there will  
be reasonable certainty that every vestige  
of the disease has been eradicated. The  
work of quarantining cattle is now nearly  
done and will be closed up next week.  
About 7,500 animals have been placed  
under quarantine, and the completed list  
will number about 9,000. A system of

#### Mammoth Notes.

Captain J. W. Johnson, superintend-  
ent of the Mammoth mine, Pinal county,  
and L. Ezekiel, of the same place, are  
at the Cosmopolitan. From Mr. Ezekiel  
we learn that the mill started up again  
last Sunday, it having been stopped for  
a short time owing to the failure of the  
haulers to keep it supplied with ore. The  
new contractors are Lamott, More & Co.,  
who have put on larger teams and will be  
able to keep the mill running constantly  
from this time on. Captain Johnson is  
deserving of the greatest credit for the  
manner in which he has brought this  
property to the front. He has had up  
hill work from the time he took hold of  
it, but has succeeded in making it one  
of the great properties of the country.  
The work was pushed rapidly forward  
with the utmost economy, and at the  
same time giving satisfaction to those  
who had contracts under him, which fact  
speaks volumes for his business tact and  
ability. He has shown splendid judg-  
ment in selecting his subordinates. Mr.  
Wallace, superintendent of the mill, has  
had great experience and has a thorough  
going, practical man. Mr. Little, fore-  
man of the mine, is the right man in the  
right place, and the work moves on easily  
under him. This mine is in splendid  
shape, the 300 foot level having been  
opened up for more than 500 feet, and  
there seems to be no limit to the ore.  
The camp is constantly improving. Mrs.  
Burch, formerly of Riverside station, is  
putting up a hotel. There are two res-  
taurants, three saloons, one blacksmith  
shop and one butcher shop. Several fine  
dwelling houses have been put up during  
the past few months, and when the post  
office is established it will be quite an  
embryo city. There are reports of a big  
deal on the topic, but we are not at lib-  
erty to say anything about it at present,  
but we are prepared to hear pretty good  
news from the Mammoth camp at any  
time.—Star.

#### General Notes.

A heavy frost fell in and around Waco,  
Texas, Friday night, killing growing vege-  
tation.

The Commercial Cable Company has  
repaired one of its cables and is now ac-  
cepting business for all points at New  
York city.

Consable Dorney, of Dublin, who  
threw down his arms and refused to obey  
orders and take part in the arrest of  
Father Ryan, has been dismissed from  
the force.

The New York Herald says that a steamer  
yacht is to be built in that city to  
sail against the Thistle and the Boat  
yacht in the America cup race in October  
next.

A deplorable condition of affairs exists  
in Calhoun and Atascosa counties, Texas,  
on account of drought. One hundred and  
six families in those counties are known  
to be suffering for the necessities of life,  
and an appeal is made on their behalf.

#### The greatest study of mankind is Man.

The greatest study of mankind is man.  
And who's his wondrous frame doth own?  
Rouder and deiver to cure an ill.  
Whether by deiver, fruit or pill,  
An equal benefactor is he; and we salute  
The inventor of a cathartic of delicate taste,  
To cure our ills.

Who remembers not how the distressed  
mother,  
Her child's entreaties tried to smother,  
That she insist not the horrid dose be taken,  
The remembrance even now does haunt  
To cure our ills.

And fond father  
To be witness of his child's torture, would  
Pay high price,  
If money could purchase Cathartic nice.

We have it now and great Dr. Pratt's name  
Appears upon the scroll of Kewaplan fame;  
For after long study—'twas no vain quest—  
Has hit upon nature's power  
To cure our ills.

Away at once with draughts and pills!  
For whether it be indigestion, liver complaint,  
Constipation,  
Or any disease to which flesh is heir,  
He here with pride does boldly declare,  
And on the scription will water his  
That it can be cured by a HAMBURG FIG!

At Druggists, 27-cent-a-box. J. J. Mack &  
Co., proprietors, S. F.

With this issue the ENTERPRISER begins  
its seventh year as sound and sane as  
yore. During the six years just com-  
pleted it has been the consistent and  
persistent champion of the best interests  
of Pinal county and Arizona, and has  
been fearless in its denunciation of those  
who have offered opposition to the ad-  
vancement and development of the  
country. Naturally, the boldness and  
candor of its utterances have provoked  
bitter enmities and subjected its editor  
to a vast amount of abuse, but in the  
face of all opposition the ENTERPRISER  
has gone straight ahead, true to itself,  
true to the best interests of the people,  
calling a spade a spade and a heart a  
heart, no matter whose corns were  
pressed or whose ambitions were  
thwarted. We believe its enemies will  
concede this fact. That it has been in-  
strumental in attracting to this county  
capital and settlers hundreds will admit;  
that it has defended the homes and rights  
of our people none can deny. In the  
future it will be the same outspoken and  
impartial defender of this county that it  
has been in the past, and its friends may  
rest assured it is here to stay, no matter  
what its enemies may do. With this  
brief announcement we sail into our  
seventh year as cheerful and "cheeky"  
as any quill driver that ever warmed an  
editorial chair.

#### Proclamation.

EXECUTIVE DEPARTMENT,  
Territory of Arizona,  
OFFICE OF THE GOVERNOR.

To all to whom these presents may come,  
Greeting:

Whereas I am informed that Felipe  
Robles was murdered on the night of the  
5th of February last in the city of Tucson  
by one Manuel Gonzalez;

Now, therefore, I, C. Meyer Zulick,  
Governor of the Territory of Arizona,  
by virtue of the authority in me vested,  
do hereby offer and proclaim a reward of  
Five Hundred Dollars for the arrest and  
conviction of the said Manuel Gonzalez.

In witness whereof I have hereunto set my hand  
and caused the great seal of the  
Territory to be affixed thereto.  
Done at Prescott, the capital,  
this 19th day of March, A. D. 1887.

By the Governor,  
JAS. A. BAYARD,  
Secretary of the Territory.

#### REWARD.

EXECUTIVE DEPARTMENT,  
Territory of Arizona,  
OFFICE OF THE GOVERNOR.

To all to whom these presents may come,  
Greeting:

Whereas, I am informed that Cornelia  
Ryan was brutally murdered at the ranch  
upon the Sonoita on the night of the  
20th of March, A. D. 1887, by one or  
more persons, names to me unknown;

Now, therefore, I, C. Meyer Zulick,  
Governor of the Territory of Arizona,  
by virtue of the authority in me vested,  
do hereby offer and proclaim a reward of  
Five Hundred Dollars for the arrest and  
conviction of the person or persons com-  
mitting said murder.

In witness whereof I have hereunto set my hand  
and caused to be affixed the Great  
Seal of the Territory of Arizona.

Done at Prescott this twenty-sixth day  
of March, A. D. 1887.

By the Governor,  
Wm. C. FOSTER,  
Acting Secretary of Territory. 52 4t

#### YOU

can live at home, and make more money  
at work for us than at anything else in  
this world. Capital not needed; you are  
started free. Both sexes, all ages. Any  
one can do the work. Large earnings are  
made from first start. Costs nothing and  
no time to learn. Better not delay. Come to  
us now
